St. Paul's High School

SSC

Thane, MH

SKILLS

Languages: Java, C++, C, HTML, CSS, JavaScript, Python, Kotlin

Tools & Frameworks: Flutter, Bootstrap, React.js, Node.js, Android Studio, Git, GitHub

PROJECTS

Resona: Song Recognition App - *Python, Flask, Librosa, PyDub, SQLite, Shazam API*

- Developed a Flask-based web app that identifies songs using Shazam API and custom audio fingerprinting with Librosa.
- Implemented user authentication and stored recognition results in a SQLite database.

Xeroq: Smart Printing for Xerox Centers - *Next.js, Tailwind CSS, Flask, Supabase*

- Created a web platform for contactless document printing with OTP-based queue management.
- Designed an admin interface to retrieve print jobs, reducing errors at college Xerox centers.

LangChain Career Guidance Chatbot - *LangChain, LangGraph, Google Gemini API, Python*

- Built an AI chatbot providing personalized career advice and course recommendations.
- Used LangGraph for memory retention and integrated Google Gemini API for intelligent responses.

ACHIEVEMENTS

- Java (Basic) Certificate – HackerRank: Demonstrated core Java proficiency including OOP, inheritance, and exception handling.
- Programming Fundamentals using Python – Infosys (2025): Certified by Infosys Springboard for strong grasp on Python programming, data structures, and OOP.
