Summary

Graduate in B.E. Information Technology, passionate about using data to uncover insights, develop solutions, and drive data-informed decisions. I enjoy working on innovative and insightful projects, such as conducting data analysis with Python and developing interactive dashboards using Tableau. My interests lie in data analytics, visualization, and UI/UX, and I have explored these areas through various projects. I'm excited about the evolving role of AI in shaping industries and look forward to contributing my skills to impactful projects.

Excited to apply my skills and grow in the field. Let's connect and explore opportunities to collaborate! Feel free to reach out!

Experience

TECH CRYPTORS
